· Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

· 4.1. Description of first aid measures

After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

In case of unconsciousness place patient stably in side position for transportation.

After skin contact:

Treat affected skin with cotton wool or cellulose. Then wash and rinse thoroughly with water and a mild cleaning agent.

If skin irritation continues, consult a doctor.

• After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

• After swallowing:

Do not induce vomiting; call for medical help immediately.

- Call for a doctor immediately.
- **4.2. Most important symptoms and effects, both acute and delayed** Headache Drowsiness
- Dizziness

Nausea

4.3. Indication of any immediate medical attention and special treatment needed

No further relevant information available.

SECTION 5: Firefighting measures

[·] 5.1. Extinguishing media

· Suitable extinguishing agents:

CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2. Special hazards arising from the substance or mixture No further relevant information available.
- 5.3. Advice for firefighters
- **Protective equipment:** Wear self-contained respiratory protective device.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Wear protective equipment. Keep unprotected persons away.
Particular danger of slipping on leaked/spilled product.
Keep away from ignition sources.
 6.2. Environmental precautions:
Prevent seepage into sewage system, workpits and cellars.

Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

- Do not allow to penetrate the ground/soil.
- 6.3. Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Use neutralising agent.

Ensure adequate ventilation.

· 6.4. Reference to other sections	
See Section 7 for information on safe handling.	
See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
SECTION 7: Handling and storage	
· 7.1. Precautions for safe handling	
Appropriate regular employee training.	
Handle the substance preferably in closed system	
Enclosure or extractor facilities are required.	
Not less than 5 -15 air exchanges per hour	
Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust	st system. If these
measures are insufficient to keep the vapour concentration below the workplace limit, wear a	
respiratory protective device.	•
Spraying: in vented cabin with laminar air flow	
Wear protective gloves/protective clothing/eye protection/face protection.	
Wear suitable respiratory protective device when decanting larger quantities without extractor	or facilities.
Use only in well ventilated areas.	
regular check up, maintenance and cleaning of equipment and machines	
Application temperature is not higher than 20°C above the surrounding temperature	
Avoid contact with the skin.	
Use drum pumps or pour from the container carefully	
Absorb spilled amount immediately.	
Avoid taking samples by immersion	
Handling procedures must be well documented.	
additional to professional application with multiple and/or significant contact	
limit the exposure to 4 hours	
Wear suitable protective gloves and protective goggles /face protection during work.	
have emergency plan in place, to minimize impact	
Do not allow to reach ground water, water bodies or sewage system.	
Open and handle receptacle with care.	
Clean the pipe before decoupling	
Close the container immediately after usage.	
Information about fire - and explosion protection:	
Keep ignition sources away - Do not smoke.	
>> Protect against electrostatic charges. <<	
Use explosion-proof apparatus / fittings and spark-proof tools.	
 General protective and hygienic measures: Keep good industrial hygiene. 	
· 7.2. Conditions for safe storage, including any incompatibilities	
Storage:	
Requirements to be met by storerooms and receptacles:	
Store in a cool location.	
Store outdoors.	
Prevent any seepage into the ground.	
· Information about storage in one common storage facility: Observe the national regulat	ions.
· Further information about storage conditions:	
Store in cool, dry conditions in well sealed receptacles.	
Store only outside or in explosion proof rooms.	
• 7.3. Specific end use(s) No further relevant information available.
