Application temperature is not higher than 20°C above the surrounding temperature  
Avoid contact with the skin.  
Conduct spray applications in a ventilated booth or in an exhausted enclosure. Or as an alternative, ensure an adequate level of controlled ventilation (10 to 15 air changes per hour) and wear a respiratory protective device according to EN140 with filter type AX or better.  
if possible use tools with long handles  
Avoid taking samples by immersion  
Wear suitable protective gloves and protective goggles /face protection during work.  
have emergency plan in place, to minimize impact
