Safety data sheet according to Regulation (EC) No. 1907/2006 as amended from

time to time

Printing date 25.08.2023

Version-No. 8 (replaces version 7)

Revision: 25.08.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking
1.1. Product identifier
Trade name / Article-No: KLEIBERIT 506.6
UFI: 9VNE-Y0DY-5007-KFKN 1.2. Relevant identified uses of the substance / mixture <u>or</u> uses advised against For professional users only. Application of the substance / the mixture Adhesives
 1.3. Details of the supplier of the safety data sheet Manufacturer/Supplier: KLEIBERIT SE & Co. KG Max-Becker-Str. 4 76356 Weingarten Germany Further information obtainable from: phone: +49 (0) 7244 62-0 FAX: +49 (0) 7244 700-0 E-Mail: hse@kleiberit.com 1.4. Emergency telephone number: +44 1235 239670 European regional number (European languages) 112 Emergency telephone number for Malta 543 22 22 Icelandic University Hospital
SECTION 2: Hazards identification
2.1. Classification of the substance or mixture
Classification according to Regulation (EC) No 1272/2008 - GHS/CLP
Acute Tox. 4 H332 Harmful if inhaled.
Skin Irrit. 2 H315 Causes skin irritation.
Eye Irrit. 2 H319 Causes serious eye irritation.
Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Skin Sens. 1 H317 May cause an allergic skin reaction.
Carc. 2 H351 Suspected of causing cancer.
STOT SE 3 H335 May cause respiratory irritation.
STOT RE 2 H373 May cause damage to the respiratory system through prolonged or repeated exposure. Route of exposure: Inhalation.
2.2. Label elements Hazard pictograms
GHS07 GHS08
Signal word Danger
Hazard-determining components of labelling: diphenylmethane-diisocyanate, isomers and homologous Hazard statements
H332 Harmful if inhaled. (Contd. on page 2)

time to time

Printing date 25.08.2023

Version-No. 8 (replaces version 7)

Revision: 25.08.2023

Description: Mixture of substances listed below with nonhazardous additions. Dangerous components:	ade name / Article-	No: KLEIBERIT 506.6	
Halls Causes skin irritation. Halls Causes serious eye irritation. Hall Causes allergy or asthma symptoms or breathing difficulties if inhaled. Hall May cause allergic skin reaction. Hall May cause allergic skin reaction. Hall May cause damage to the respiratory system through prolonged or repeated exposure. Route of exposure: Inhalation. Precautionary statements P260 Do not breathe mist/vapours/spray. P280 Wear protective gloves / eye protection. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P304 Get medical advice/attention if you feel unwell. Additional information: Contains isocyanates. May produce an allergic reaction. As from 24 August 2023 adequate training is required before industrial or professional use. Information concerning particular hazards for human and environment: Persons already sensitised to diisocyanates may develop allergic reactions when using this product. Persons already sensitised to diisocyanates may develop allergic reactions when using this product. This product should not be used under conditions of poor ventilation unless a protective mask with an appropriate gas filter (i.e. type A1 according to standard EN 14387) is used. 23. Other hazards Results of PBT and vPvB assessment PBT: Not applicable. VPvB: Not applicable. VPvB: Not applicable. SECTION 3: Composition/Information on ingredients 32. Mixtures Description: Mixture of substances listed below with nonhazardous additions. Dangerous components: Registry-No's Identification / Classification GHS-CLP Prepolymer consisting of (p) MDI and polyether polyol Resp. Sens. 1, H334; STOT RE 2, H373; Acute Tox. 4, H332; Skin Irnt. 2, H315; Eye Irnt. 2, H316; Skin Sens. 1, H317; STOT SE 3, Histaj S, EUH204 ATE: L		(Con	td. of page
H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. H317 May cause an allergic skin reaction. H335 May cause respiratory irritation. • Additional information: For the wording of the listed hazard phrases refer to section 16.				
SECTION 4: First aid measures				
 4.1. Description of first aid measures General information: Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. After inhalation: Supply fresh air and to be sure call for a doctor. In case of unconsciousness place patient stably in side position for transportation. Take affected persons into fresh air and keep quiet. After skin contact: Treat affected skin with cotton wool or cellulose. Then wash and rinse thoroughly with water and a mild cleaning agent. Immediately wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor. After swallowing: Call for a doctor immediately. 4.2. Most important symptoms and effects, both acute and delayed Asthma attacks Allergic reactions 4.3. Indication of any immediate medical attention and special treatment needed No further relevant information available.

Safety data sheet according to Regulation (EC) No. 1907/2006 as amended from

time to time

Printing date 25.08.2023

Version-No. 8 (replaces version 7)

Revision: 25.08.2023

Trade name / Article-No: KLEIBERIT 506.6

(Contd. of page 3)

SECTION 5: Firefighting measures

- · 5.1. Extinguishing media
- · Suitable extinguishing agents:

CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- · 5.2. Special hazards arising from the substance or mixture
- In case of fire, the following can be released: Isocyanates

Nitrogen oxides (NOx)

Traces: Hydrogen cyanide (HCN)

5.3. Advice for firefighters

• Protective equipment: Wear self-contained respiratory protective device.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Particular danger of slipping on leaked/spilled product.

Use respiratory protective device against the effects of fumes/dust/aerosol.

• 6.2. Environmental precautions: No special measures required.

6.3. Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralising agent.

Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.

Take up mechanically; cover residues with wet, liquidbinding material (saw dust, universal binder - diatomite, sand). Take up after 1 hour in receptacles, don't close tight (development of CO2 !). Be aware that sufficient moisture is present and keep outdoors for several days.

6.4. Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Handle the substance preferably in closed system

Enclosure or extractor facilities are required.

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the vapour concentration below the workplace limit, wear an adequate respiratory protective device.

Not less than 3-5 air exchanges per hour

Appropriate regular employee training.

Skin contact and inhalation of aerosols/vapours of the preparation should be avoided.

Spraying: in vented cabin with laminar air flow

Wear protective gloves/protective clothing/eye protection/face protection.

Use only in well ventilated areas.

Wear suitable respiratory protective device when decanting larger quantities without extractor facilities. Avoid contact with skin and eyes.

It is advised against using the product if there is a sensitivity of the airways or skin (asthma, chronic bronchitis, chronic skin disease)

additional to professional application with multiple and/or significant contact

limit the exposure to 4 hours

General protective and hygienic measures: Immediately remove all soiled and contaminated clothing

· 7.2. Conditions for safe storage, including any incompatibilities

· Storage:

• Requirements to be met by storerooms and receptacles: Keep container tightly closed.
