· Determination of endocrine-disrupting properties

1244733-77-4 Tris(2-chloro-1-methylethyl) phosphate, reactionproducts: List II

SECTION 3: Composition/information on ingredients · 3.2 Mixtures · Description: Mixture of substances listed below with nonhazardous additions. · Dangerous components: Identification / Classification GHS-CLP **Registry-No's** % Tris(2-chloro-1-methylethyl) phosphate, reactionproducts CAS: 1244733-77-4 40-50% Reg.nr.: 01-2119486772-26-XXXX Acute Tox. 4, H302 CAS: 1179964-22-7 2.2',6.6'-Tetrabromo-4.4'-isopropylidenediphenol, oligomeric 20-30% Reg.nr.: 01-2119971810-36-XXXX reaction products with Propylene oxide and n-butyl glycidyl ether Acute Tox. 4, H302 CAS: 112945-52-5 Silicon dioxide, amorphous ≤3% Reg.nr.: 01-2119379499-16-XXXX substance with a Community workplace exposure limit <2% CAS: 77-99-6 trimetilolpropane Reg.nr.: 01-2119486799-10-XXXX Repr. 2, H361fd CAS: 111-46-6 diethylene glycol <2% Reg.nr.: 01-2119457857-21-XXXX Acute Tox. 4, H302 CAS: 37251-69-7 Ethylene oxide - propylene oxide copolymer mono(nonylphenyl) <2% ether Aquatic Chronic 3, H412

• Additional information: For the wording of the listed hazard phrases refer to section 16.

## **SECTION 4: First aid measures**

#### • 4.1. Description of first aid measures

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- After swallowing: Call for a doctor immediately.
- · 4.2. Most important symptoms and effects, both acute and delayed
- No further relevant information available.
- **4.3. Indication of any immediate medical attention and special treatment needed** No further relevant information available.

(Contd. of page 2)

## **SECTION 5: Firefighting measures**

<sup>·</sup> 5.1. Extinguishing media

• Suitable extinguishing agents:

- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- 5.2. Special hazards arising from the substance or mixture No further relevant information available.
- 5.3. Advice for firefighters
- · Protective equipment: Wear self-contained respiratory protective device.

## **SECTION 6: Accidental release measures**

- 6.1. Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Particular danger of slipping on leaked/spilled product.
- 6.2. Environmental precautions:
- Do not allow to enter surface or ground water.
- No special measures required.
- 6.3. Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

6.4. Reference to other sections

- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

## **SECTION 7: Handling and storage**

· 7.1. Precautions for safe handling

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the vapour concentration below the workplace limit, wear an adequate respiratory protective device.

Do not allow to reach ground water, water bodies or sewage system.

Clean the pipe before decoupling

- General protective and hygienic measures: Keep good industrial hygiene.
- 7.2. Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: Keep container tightly closed.
- · Information about storage in one common storage facility: Observe the national regulations.
- · Further information about storage conditions: None.
- 7.3. Specific end use(s) No further relevant information available.

• Additional information: For the wording of the listed hazard phrases refer to section 16.

## **SECTION 4: First aid measures**

### • 4.1. Description of first aid measures

General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

• After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

Take affected persons into fresh air and keep quiet.

#### • After skin contact:

Treat affected skin with cotton wool or cellulose. Then wash and rinse thoroughly with water and a mild cleaning agent.

Immediately wash with water and soap and rinse thoroughly.

#### Page 4/13

# Safety data sheet

according to Regulation (EC) No. 1907/2006 as amended from

time to time

Printing date 18.01.2024

Version-No. 6 (replaces version 5)

Revision: 18.01.2024

(Contd. of page 3)

# Trade name / Article-No: KLEIBERIT 536.0 B

If skin irritation continues, consult a doctor.

- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Call for a doctor immediately.
- 4.2. Most important symptoms and effects, both acute and delayed Asthma attacks

Allergic reactions

- 4.3. Indication of any immediate medical attention and special treatment needed No further relevant information available.

## **SECTION 5: Firefighting measures**

#### · 5.1. Extinguishing media

- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- 5.2. Special hazards arising from the substance or mixture

## In case of fire, the following can be released:

Isocvanates

Nitrogen oxides (NOx) Traces: Hydrogen cyanide (HCN)

5.3. Advice for firefighters

· Protective equipment: Wear self-contained respiratory protective device.

## **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Particular danger of slipping on leaked/spilled product.

Use respiratory protective device against the effects of fumes/dust/aerosol.

#### · 6.2. Environmental precautions: No special measures required.

· 6.3. Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Use neutralising agent.

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

Take up mechanically; cover residues with wet, liquidbinding material (saw dust, universal binder - diatomite, sand). Take up after 1 hour in receptacles, don't close tight (development of CO2 !). Be aware that sufficient moisture is present and keep outdoors for several days.

- 6.4. Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Handle the substance preferably in closed system

Enclosure or extractor facilities are required.

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the vapour concentration below the workplace limit, wear an adequate respiratory protective device.

Not less than 3-5 air exchanges per hour

#### Page 5/13

# Safety data sheet

according to Regulation (EC) No. 1907/2006 as amended from

(Contd. of page 4)

# Trade name / Article-No: KLEIBERIT 536.0 B

Appropriate regular employee training.

Skin contact and inhalation of aerosols/vapours of the preparation should be avoided.

Spraying: in vented cabin with laminar air flow

Wear protective gloves/protective clothing/eye protection/face protection.

Use only in well ventilated areas.

Wear suitable respiratory protective device when decanting larger quantities without extractor facilities. Avoid contact with skin and eyes.

It is advised against using the product if there is a sensitivity of the airways or skin (asthma, chronic bronchitis, chronic skin disease)

additional to professional application with multiple and/or significant contact limit the exposure to 4 hours

General protective and hygienic measures: Immediately remove all soiled and contaminated clothing

#### · 7.2. Conditions for safe storage, including any incompatibilities

· Storage:

• Requirements to be met by storerooms and receptacles: Keep container tightly closed.

· Information about storage in one common storage facility: Observe the national regulations.

• Further information about storage conditions: Protect from humidity and water.

• 7.3. Specific end use(s) No further relevant information available.

## **SECTION 8: Exposure controls/personal protection**

- · 8.1. Control parameters
- · Ingredients with limit values that require monitoring at the workplace:

· DNELs

#### 9016-87-9 diphenylmethane-diisocyanate, isomers and homologous

ELINCS: European List of Notified Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

- DNEL: Derived No-Effect Level (REACH)
- PNEC: Predicted No-Effect Concentration (REACH)
- LC50: Lethal concentration, 50 percent
- LD50: Lethal dose, 50 percent PBT: Persistent, Bioaccumulative an

PBT: Persistent, Bioaccumulative and Toxic vPvB: very Persistent and very Bioaccumulative

ATE: Acute toxicity estimate values

- Acute Tox. 4: Acute toxicity Category 4
- Skin Irrit. 2: Skin corrosion/irritation Category 2

Eye Irrit. 2: Serious eye damage/eye irritation - Category 2

Resp. Sens. 1: Respiratory sensitisation - Category 1

Skin Sens. 1: Skin sensitisation – Category 1
