Safety data sheet according to Regulation (EC) No. 1907/2006 as amended from

time to time

Printing date 16.02.2024

Version-No. 2 (replaces version 1)

Revision: 20.11.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking         1.1. Product identifier         Trade name / Article-No: KLEIBERT 702.5.50 ME         1.2. Relevant identified uses of the substance / mixture or uses advised against For professional users only.         Application of the substance / the mixture Adhesives         1.3. Details of the subplier of the safety data sheet         Manufacturer/Rupplier:         KLEIBERT 5E & Co. KG         Maw-Becker-Str. 4         78356 Weingarten         Germany         Further Information obtainable from: phone: +49 (0) 7244 62-0 FAX: +49 (0) 7244 70-0         E-Mail: hee@klebent.com         *1.4. Emergency telephone number: +44 1235 239670 European regional number (European languages)         SECTION 2: Hazards identification         *2.1. Classification of the substance or mixture         Classification according to Regulation (EC) No 1272/2008 - GHS/CLP         The product is not classified as hazardous to health or environment according to the CLP regulation.         2.2. Label elements         Hazard statements Void         Additional information:         Contains isocyanizes. May produce an allergic reaction.         2.3. Other hazards         Results of PBT and VPVB assessment         PBT: Not applicable.         Secrition: Scomposition/Information on ingredients

Additional information: For the wording of the listed hazard phrases refer to section 16.  SECTION 4: First aid measures An example of first aid measures Anter inhalation: Supply fresh air; consult doctor in case of complaints. After relatation: Supply fresh air; consult doctor in case of complaints. After skin contact: After contact with the molten product, cool rapidly with cold water. Rinse with warm water. After swallowing: Rinse optened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Rinse optened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Rinse optened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Rinse outh outh plenty of water. Seek medical treatment. A.2. Most important symptoms and effects, both acute and delayed No further relevant information available. SECTION 5: Firefighting measures S.1. Extinguishing media Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam. S.2. Special hazards arising from the substance or mixture In case of fire, the following can be released: Isocyanates Nitrogen oxides (NOX) Traces: Hydrogen cyanide (HCN) S.3. Advice for firefighters Fortowide (HCN) S.3. Advice for firefighters Section 1 for information on safe handling. See Section 7 for information on personal protection equipment. See Section 1 for information on personal protection equipment. See Section 1 for information on personal protection equipment. See Section 1 for information on safe handling. See Section 1 for information on safe handling. See Section 1 for information on personal protection equipment. See Section 1 for information on personal protection equipment. Advice for firefighters Protective equipment: Wear self-contained respiratory protective device. 5.1. Extinguisment release measures 6.1. Personal precautions; No special measures required. 6.2. Environmental precautions; No special measures required. 6.3. Methods and material for containment and cleaning up: Pick up mechanically. 6.4. Reference to other sections See Section 7 for information on safe handling. See Section 13 for disposal information.		
Rinse with warm water.         • After eye contact:         Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.         • After swallowing:         Rinse out mouth with plenty of water.         Seek medical treatment.         • 4.3. Indication of any immediate medical attention and special treatment needed         No further relevant information available.         • 51. Extinguishing media         • Suitable extinguishing agents:         CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.         • 52. Special hazards arising from the substance or mixture         In case of fire, the following can be released:         Isocyanates         Nitrogen oxides (NOx)         Traces: Hydrogen cyanide (HCN)         • 53. Advice for firefighters         • Protective equipment: Wear self-contained respiratory protective device.         SECTION 6: Accidental release measures         • 61. Personal precautions, protective equipment and emergency procedures Not required.         • 62. Revironmental precautions: No special measures required.         • 63. Methods and material for containment and cleaning up: Pick up mechanically.         • 64. Reference to other sections         See Section 7 for information on safe handling.         See Section 7 for information on serin protection equipment.

according to Regulation (EC) No. 1907/2006 as amended from

time to time

Printing date 16.02.2024

Version-No. 2 (replaces version 1)

Revision: 20.11.2023

Trade name / Article-No: KLEIBERIT 702.5.50 ME

(Contd. of page 2) • Information about storage in one common storage facility: Observe the national regulations. • Further information about storage conditions: Protect from humidity and water. · 7.3. Specific end use(s) No further relevant information available. **SECTION 8: Exposure controls/personal protection** · 8.1. Control parameters · Ingredients with limit values that require monitoring at the workplace: · Ingredients with biological limit values: 101-68-8 diphenylmethane-4,4'-diisocyanate BGW (Germany) 10 µg/g Kreatinin Untersuchungsmaterial: Urin Probennahmezeitpunkt: Expositionsende bzw. Schichtende Parameter: 4.4'-Diaminodiphenylmethan CAS No. Designation of material % Type Value Unit 101-68-8 diphenylmethane-4,4'-diisocyanate AGW (Germany) Long-term value: 0.05 E mg/m<sup>3</sup> 1;=2=(I);DFG, 11, 12, H, Sah, Y · 8.2. Exposure controls 8 hours

• Appropriate engineering controls No further data; see section 7.

#### · Individual protection measures, such as personal protective equipment

· General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

· Respiratory protection:

Use suitable respiratory protective device in case of insufficient ventilation: At spray application respiratory protection must be worn. Filter A/P2

Hand protection

Protective gloves

- Heat resistant gloves
- Material of gloves

Synthetic rubber gloves

- Leather gloves
- Eye/face protection Safety glasses

Body protection: Protective work clothing

· Thermal hazards Risk of burns during thermal processing.

SECTION 9: Physical and chemical properties			
· 9.1. Information on basic physical	and chemical properties		
· General Information			
· Physical state	Solid		
· Colour:	According to product specification		
· Odour:	Light		
· Odour threshold:	Not determined.

#### **SECTION 10: Stability and reactivity**

10.1. Reactivity

see item 10.3

No further relevant information available.

- · 10.2. Chemical stability Stable when stored and used properly.
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- **10.3. Possibility of hazardous reactions** No dangerous reactions known.
- $\cdot$  10.4. Conditions to avoid No further relevant information available.
- **10.5. Incompatible materials:** No further relevant information available.
- · 10.6. Hazardous decomposition products: Isocyanates

• Additional information:

When hotmelt adhesives are melted and applied, vapours are set free and an unpleasant odour can occur, even if the recommended working temperature has been observed. Moreover if the prescribed working temperature is exceeded over a longer period, harmful decomposition products can develop. Precautions should be taken to eliminate the vapours, e.g. by using a suitable ventilation system.

Therefore measures for the elimination of the vapours have to be taken, e.g. by means of an appropriate ventilation/ exhaust device.

#### **SECTION 11: Toxicological information**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

- Acute toxicity Based on available data, the classification criteria are not met.
- Skin corrosion/irritation Based on available data, the classification criteria are not met.
- · Serious eye damage/irritation Based on available data, the classification criteria are not met.
- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · Reproductive toxicity Based on available data, the classification criteria are not met.
- · STOT-single exposure Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.
- 11.2 Information on other hazards
- · Endocrine disrupting properties

None of the ingredients is listed.

### **SECTION 12: Ecological information**

12.1. Toxicity

- · Aquatic toxicity: No further relevant information available.
- 12.2. Persistence and degradability No further relevant information available.

• **12.3. Bioaccumulative potential** No further relevant information available.

40 C Desults of DDT and UDUD second	(Contd. of page
12.5. Results of PBT and vPvB assessm	nent
PBT: Not applicable.	
vPvB: Not applicable.	
12.6 Endocrine disrupting properties	with and arrive diarupting properties
The product does not contain substances <b>12.7 Other adverse effects</b>	with endocrine disrupting properties.
Behaviour in sewage processing plants	
Remark:	).
	ties to biological sewage plants failures of the activated sludge are
not expected.	
Additional ecological information:	
General notes:	
Not known to be hazardous to water.	
Water hazard class 1 (German Regulation	) (Self-assessment): slightly hazardous for water
SECTION 13: Disposal considera	itions
13.1. Waste treatment methods	
	gether with household waste in small quantities after solidification.
European waste catalogue	gener with household waste in small quantities after solidification.

· Regulation (EU) No 649/2012

None of the ingredients is listed.

DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment – Annex II

None of the ingredients is listed.

- · REGULATION (EU) 2019/1148
- Annex I RESTRICTED EXPLOSIVES PRECURSORS (Upper limit value for the purpose of licensing under Article 5(3))

None of the ingredients is listed.

Annex II - REPORTABLE EXPLOSIVES PRECURSORS

None of the ingredients is listed.

Regulation (EC) No 273/2004 on drug precursors

None of the ingredients is listed.

Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the Community and third countries in drug precursors

None of the ingredients is listed.

- National regulations:
- · D: Waterhazard class Water hazard class 1 (Self-assessment): slightly hazardous for water.
- · VOC 2010/75/EU [g/L]: <1.0 g/l

· VOC - 2010/75/EU [%]: <0.10 %

· 15.2. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

### **SECTION 16: Other information**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

#### Relevant phrases

- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- H335 May cause respiratory irritation.
- H351 Suspected of causing cancer.
- H373 May cause damage to organs through prolonged or repeated exposure.
- EUH204 Contains isocyanates. May produce an allergic reaction.
