# Safety data sheet

according to Regulation (EC) No. 1907/2006 as amended from

time to time

Printing date 24.01.2023

Version-No. 7 (replaces version 6)

Revision: 24.01.2023

(Contd. of page 2)

# Trade name / Article-No: KLEIBERIT 706.2.04

- After swallowing: Call for a doctor immediately.
- **4.2. Most important symptoms and effects, both acute and delayed** Asthma attacks

Allergic reactions

• **4.3. Indication of any immediate medical attention and special treatment needed** No further relevant information available.

## **SECTION 5: Firefighting measures**

- · 5.1. Extinguishing media
- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- 5.2. Special hazards arising from the substance or mixture
- In case of fire, the following can be released:
- Isocyanates Nitrogen oxides (NOx)

Traces: Hydrogen cvanide (HCN)

- 5.3. Advice for firefighters
- · Protective equipment: Wear self-contained respiratory protective device.

## **SECTION 6: Accidental release measures**

· 6.1. Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

- Use respiratory protective device against the effects of fumes/dust/aerosol.
- 6.2. Environmental precautions: No special measures required.
- 6.3. Methods and material for containment and cleaning up:
- Dispose contaminated material as waste according to item 13.
- Ensure adequate ventilation.
- 6.4. Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

## **SECTION 7: Handling and storage**

## 7.1. Precautions for safe handling

Appropriate regular employee training.

Handle the substance preferably in closed system

Enclosure or extractor facilities are required.

Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the vapour concentration below the workplace limit, wear an adequate respiratory protective device.

- Not less than 3-5 air exchanges per hour
- Contact with skin and inhalation of aerosols/ vapours of the preparation should be avoided.
- Spraying: in vented cabin with laminar air flow
- Wear protective gloves/protective clothing/eye protection/face protection.
- Use only in well ventilated areas.
- Prevent formation of dust.

Wear suitable respiratory protective device when decanting larger quantities without extractor facilities.

(Contd. on page 4)

## Page 4/10

# Safety data sheet

according to Regulation (EC) No. 1907/2006 as amended from

time to time

Version-No. 7 (replaces version 6)

Revision: 24.01.2023

(Contd. of page 3)

# Trade name / Article-No: KLEIBERIT 706.2.04

Avoid contact with skin and eyes.

It is advised against using the product if there is a sensitivity of the airways or skin (asthma, chronic bronchitis, chronic skin disease)

additional to professional application with multiple and/or significant contact limit the exposure to 4 hours

· General protective and hygienic measures: Immediately remove all soiled and contaminated clothing

## 7.2. Conditions for safe storage, including any incompatibilities

· Storage:

· Requirements to be met by storerooms and receptacles: Keep container tightly closed.

- Information about storage in one common storage facility: Observe the national regulations.
- Further information about storage conditions: Protect from humidity and water.
- · 7.3. Specific end use(s) No further relevant information available.

## **SECTION 8: Exposure controls/personal protection**

### · 8.1. Control parameters

· Ingredients with limit values that require monitoring at the workplace:

DNELs

## 101-68-8 diphenylmethane-4,4'-diisocyanate

Dermal DNEL short term 50 mg/kg (human being) Inhalative DNEL short term 0.1 mg/m3 (human being) DNEL long term 0.05 mg/m3 (human being)

## · PNECs

## 101-68-8 diphenylmethane-4,4'-diisocyanate

PNEC- Freshwater	1 mg/l (not specified)
PNEC-seawater	0.1 mg/l (not specified)
PNEC-periodic release	10 mg/l (not specified)
PNEC-Freshwater sediment	1 mg/kg (not specified)
PNEC-soil	1 mg/kg (not specified)
PNEC-wastewater treatment plant	1 mg/l (not specified)

## · Ingredients with <u>biological</u> limit values:

## 101-68-8 diphenylmethane-4,4'-diisocyanate

BGW (Germany) 10 μg/g Kreatinin Untersuchungsmaterial: Urin Probennahmezeitpunkt: Expositionsende bzw. Schichtende Parameter: 4.4'-Diaminodiphenylmethan CAS No. Designation of material % Type Value Unit

## 101-68-8 diphenylmethane-4,4'-diisocyanate

AGW (Germany) Long-term value: 0.05 E mg/m³ 1;=2=(I);DFG, 11, 12, H, Sah, Y

### 8.2. Exposure controls

limit the exposure to:

## **SECTION 10: Stability and reactivity**

## 10.1. Reactivity

see item 10.3

No further relevant information available.

- 10.2. Chemical stability Stable when stored and used properly.
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- 10.3. Possibility of hazardous reactions No dangerous reactions known.
- 10.4. Conditions to avoid No further relevant information available.
- **10.5. Incompatible materials:** No further relevant information available.
- · 10.6. Hazardous decomposition products: Isocyanates
- · Additional information:

When hotmelt adhesives are melted and applied, vapours are set free and an unpleasant odour can occur, even if the recommended working temperature has been observed. Moreover if the prescribed working temperature is exceeded over a longer period, harmful decomposition products can develop. Precautions should be taken to eliminate the vapours, e.g. by using a suitable ventilation system.

Therefore measures for the elimination of the vapours have to be taken, e.g. by means of an appropriate ventilation/ exhaust device.

(Contd. on page 7)

## Page 7/10

# Safety data sheet

according to Regulation (EC) No. 1907/2006 as amended from

(Contd. of page 6)

## **SECTION 11: Toxicological information**

- 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008
- · Acute toxicity Based on available data, the classification criteria are not met.

LD/LC<sub>50</sub> values relevant for classification:

## 101-68-8 diphenylmethane-4,4'-diisocyanate

Oral LD<sub>50</sub> >2,000 mg/kg (rat) (84/449/EWG, B.1)

Dermal  $LD_{50}$  >9,400 mg/kg (rabbit) (OECD 402)

Inhalative LC<sub>50</sub> /4 h 1.5 mg/l (not specified) (Calculation (ATE))

Note:

diphenylmethane-diisocyanate:

The test atmosphere generated in the animal study is not representative of workplace environments, how the substance is placed on the market, and how it can reasonably be expected to be used. Therefore the test result cannot be directly applied for the purpose of assessing hazard. Based on expert judgment and the weight of the evidence, a modified classification for acute inhalation toxicity is justified.

- Skin corrosion/irritation Based on available data, the classification criteria are not met.
- · Serious eye damage/irritation Based on available data, the classification criteria are not met.
- · Respiratory or skin sensitisation

May cause allergy or asthma symptoms or breathing difficulties if inhaled.

- May cause an allergic skin reaction.
- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Suspected of causing cancer.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT-single exposure Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard Based on available data, the classification criteria are not met.
- 11.2 Information on other hazards
- · Endocrine disrupting properties

None of the ingredients is listed.

## **SECTION 12: Ecological information**

## 12.1. Toxicity

· Aquatic toxicity:

## 101-68-8 diphenylmethane-4,4'-diisocyanate

LC<sub>50</sub> >1,000 mg / I / 96h (fish)

 $EC_{50} > 1,000 \text{ mg} / 1 / 24h \text{ (water flea - daphnia)}$ 

IC<sub>50</sub> >1,640 mg / I / 72h (algae)

**12.2. Persistence and degradability** No further relevant information available.

• **12.3. Bioaccumulative potential** No further relevant information available.

- 12.4. Mobility in soil No further relevant information available.
- 12.5. Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · **vPvB:** Not applicable.

12.6 Endocrine disrupting properties	
The product does not contain substances v	with endocrine disrupting properties.
12.6. Other adverse effects	
Behaviour in sewage processing plants	
Remark:	
	ies to biological sewage plants failures of the activated sludge are
not expected.	
Additional ecological information:	
General notes:	
Not known to be hazardous to water.	
Water hazard class 1 (German Regulation)	) (Self-assessment): slightly hazardous for water
SECTION 13: Disposal considera	tions
· 13.1. Waste treatment methods	
· Recommendation
